DETAILED ACTION

1. Claims 1-17 have been submitted for examination.
2. Claims 1-17 have been examined and rejected.

Information Disclosure Statement

3. The information disclosure statement filed March 2, 2000, has been initialed and considered.

Drawings

4. Applicant filed the instant specification with informal drawings. These drawings are acceptable for examining purposes only.

Claim Rejections - 35 U.S.C. § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. § 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being examined was not (1) filed on or after November 29, 2000, or (2) voluntarily published under 35 U.S.C. 122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

6. Claims 1-17 are rejected under 35 U.S.C. § 102(e) as being clearly anticipated by Chen et al. (882), Eckes et al. (832), Kram (531) and further rejected under 35 U.S.C. § 102(b) as being clearly anticipated by Gressel et al. (213), Somasegar et al. (362), and SWETMAN (WO97/35406), individually.

Chen et al. (882), Eckes et al. (832), Kram (531), Gressel et al. (213), Somasegar et al. (362), and SWETMAN (WO97/35406), individually clearly disclose client/server simulation environments with one or more locally attached clients, simulating at level 2 and 3 of a protocol stack by formulating client requests to have unique client identifiers incorporated at the level 2 or 3 of the protocol stack before transmission on a communication channel having a routing access to a server for servicing the client requests, further including framing with data and maintaining individual or unique client status inclusive of idles, timeouts or wait times and wherein the operations of the servers under test are monitored and analyzed as equivalently recited within claims 1-17.

Conclusion

7. The prior art made of record, see PTO 892, and not relied upon is considered pertinent to Applicant's disclosure, careful consideration must be given prior to Applicant's response to this Office Action.

8. A shortened statutory period for response to this action is set to expire 3 (three) months and 0 (zero) days from the mail date of this action. Failure to respond within the period for response will result in ABANDONMENT of the application (see 35 U.S.C. 133, M.P.E.P. 710.02, 710.02(b)).
